

COSC150: Assignment 4 (19 January 2021)

News about Computation in the Sciences

1. Go to the class collaboration page in Google Sheets:
<https://tinyurl.com/COSC150-Collaborations>
 - a. Go to the tab labeled “computation in the sciences”
 - b. Find at least 3 news articles describing recent news about how computation is being used to advance human knowledge in one or more sciences (any field of natural or social science, mathematics or engineering). I recommend using your favorite NEWS search engine such as
 - i. <http://news.google.com>
 - ii. <http://news.bing.com>
 - iii. <http://news.yahoo.com>
 - iv. Etc.
 - c. Enter into the google sheet a few words about the main idea and a link to the article(s).
2. Before class on Tuesday 19 January 2021, send me in PDF format a 2-3 paragraph summary of what you learned about computation in the sciences. What did you expect? What did you observe? Upon reflection, what did you learn?

Use Piazza HW4 for any questions.
